NGA Demonstrates the Power of GEOINT at the ESRI International Users Conference

SPRINGFIELD, Va. — National Geospatial-Intelligence Agency (NGA), the nation's premier source of geospatial intelligence (GEOINT), will be at the ESRI International User Conference at the San Diego Convention Center, July 11-15, 2011, demonstrating the power of GEOINT.

In booth #D431, NGA will showcase geospatial intelligence capabilities and initiatives intended to put the power of GEOINT into the hands of users by increasingly delivering intelligence online and on demand, and by broadening and deepening analytical expertise. The exhibit hall opens on July 12, at 9 a.m. and closes on July 14, at 1:30 p.m.

NGA experts will also participate in several user paper sessions and panel discussions over the week-long conference. For more information on the ESRI International User Conference, visit www.esri.com/events/user-conference/index.html.

NGA is the nation's premier source of geospatial intelligence. As a Department of Defense combat support agency and a member of the U.S. Intelligence Community, NGA provides imagery, geospatial and targeting analysis, along with image sciences and modeling for U.S. national defense, disaster relief and safety of navigation. NGA seeks to know the Earth, show the way and understand the world. For more information, visit www.nga.mil.
